Final plans approved for north section of MAPS 3 Park

The Oklahoma City Council recently voted to approve final plans and specifications for the 40-acre upper section of the **MAPS 3 Park**, with a scheduled groundbreaking set for this summer. City staff will solicit bids from contractors to build the park, which is scheduled to be finished in spring 2019.

"The new park will be a place people will meet to enjoy the trails and water features, gather for concerts and events, spend time with their children, family and friends in a natural setting in the heart of a thriving city," Mayor Mick Cornett said.

The plans call for colorful use of native plants, woodland areas, amenities for accessibility, a café, a stage, a lake and more. An expansive oval green space is the focus of the top half of the upper park, including a stage developed with the help of local performing arts groups. It will serve as a centerpiece for small- and large-scale events at the park.

A boathouse will sit on the northwestern shore of the lake, which will be south of the oval. Park visitors can check out paddleboats or use a covered seating area. Other modern amenities to be featured in the park include a play pavilion and playground, a covered event pavilion and a café.

A long, tree-lined promenade and walking paths get visitors from place to place. Plants in the park were chosen for Oklahoma's climate and will provide beauty, color and a natural, sustainable setting for visitors.

Switchgrass, lilies, sagebrush, lavender, coneflowers, black-eyed Susans, yuccas and rosemary are a few examples of plant life planned for the park. Arrangements will provide distinct, multisensory experiences for visitors as they move through the park.

Safety Tips At Home

The tips listed below are just a few things to keep in mind and keep you safe at home:

1. Make sure all your locks on doors and windows are in good working order and keep them locked when not in use.
2. Always know who is at your door before you open it; If you don't know them, DON'T open the door.
3. If someone comes to your door and asks to use your phone, offer to make the phone call for them. If they insist on coming in, call 911.
4. Give your home the appearance that someone is home. During the day, leave a radio on and at night, leave your outside lights on.
5. When you are working outside, lock your doors and shut your garage door so no one can make easy entry into your home while you are distracted by your activities.
6. Carry your cell phone with you while doing yard work so if you see something suspicious or have an emergency you can call 911.
7. Develop a good relationship with your neighbors so they can watch your house and you can watch theirs.
8. Always remember - if you think you should call 911 because of something that you see or hear, DO IT!
